Zones and routes in Kronoberg County

Kronoberg County is divided up into zones. Fares for journeys with Länstrafiken Kronoberg are determined by the number of zones in which you travel. This means that the further you travel, the higher the fare.

You will never have to pay for more than 12 zones for journeys in Kronoberg County.

Travelling in Kronoberg County

Tickets and travelcards

When you travel on our buses and trains you can buy a single ticket, but it's always cheaper to use our Resekort travelcard. There are two types of Resekort: Discount Card (top-up) and Period Card (monthly). Choose the most appropriate card for your travel needs! The Resekort can be topped up or used as a travelcard for a specific period.

Single tickets

The price of a single ticket is based on your age and the number of zones you pass through. There is only one price for using city transport, the equivalent of one zone. Single tickets for train journeys include free travel by bus within the arrival zone.

Resekort Discount Card (top-up travelcard)

This Resekort can be purchased and topped up with a minimum of SEK 100 (even hundreds) and it then works like a payment card. The card is not attached to an individual passenger and it does not expire. When you use your top-up card, every journey you make will always give you a 20% discount on the standard fare.

Duo/Family tickets

– cheaper together!

Duo/Family tickets are the cheapest way for several people or a family to travel in Kronoberg. You pay for two adults and get a 10% discount. If you pay using a top-up travelcard, you get an additional 20% discount off the standard fare.
