

**Micropower, selected as supplier of the year 2012 for
Toyota Material Handling Europe.**

The motivation makes us proud but also humble for the future!

TMHE motivation

BT Supplier of the Year FY2012

This year's award covers not only BT Products, but also our TMHE Parts Operations business in Mjölby.

The supplier we have selected this year has a long history together with us,
and an excellent track record.

For several years they have shown very strong results within Quality,
Delivery as well as Technical performance.

They also show proof of good competitive performance in their market segment.

It's with great honour I would like to present the award BT Supplier of the Year FY2012
